

Justin Derek Britt

Senior IT & Cyber Operations Leader · Technical Project Manager · Computer Science B.S. Candidate

Sacramento, California · (719) 420-9039 · jd@britt.gg · britt.gg · github.com/jdtherobot · Active DoD Security Clearance

PROFESSIONAL PROFILE

Senior U.S. Air Force IT and cyber operations leader with 12+ years advancing enterprise networks, technical project management, and cybersecurity across five organizations in three countries. Progressed from client-systems technician to section and flight chief — selected above grade twice — leading teams of up to 50 technicians and portfolios exceeding \$10M, while personally engineering the technical solutions behind the mission, from a reverse-engineered network-automation tool to full-stack applications. Two-time Distinguished Graduate and AETC Top Graduate now pursuing a B.S. in Computer Science, with a consistent record of self-directed technical learning, hands-on programming, and peer instruction. Seeking to apply proven operational leadership and strong technical aptitude to cyber capability development and advanced study in computer science.

TECHNICAL PROFICIENCIES

Programming & Scripting: Python · C · C++ · Java · SQL · PowerShell · Bash · VBA

Cybersecurity & Cyber Operations: Vulnerability management · Computer network defense · Penetration-testing fundamentals · Packet analysis (Wireshark) · Capture-the-Flag (CTF) design · RMF & NSA-directive compliance · TEMPEST · Embedded C

Systems & Networking: Cisco IOS · Windows enterprise administration · Linux administration · Virtualization · SIPRNet / NIPRNet · Network modernization & switch configuration · Git

IT Service & Lifecycle: Help-desk & service-desk operations (Tier 1–3, technician to section chief) · Client-systems support (desktop to wall jack) · Trouble-ticket & queue management · IT asset management (ITAM) · Technology refresh & procurement · DPAS

Leadership & Program Mgmt: Technical project & program management · Requirements engineering (CIPS) · Training-program development · Cross-functional & multinational team leadership · Risk, continuity & contingency planning

EDUCATION

B.S., Computer Science — Western Governors University

January 2024 – Present · Expected September 2027

90 of 120 competency units complete, all passed at the B-or-better standard while serving full time.

Selected coursework: Java Fundamentals & Frameworks (Spring full-stack), Advanced Java, Back-End Programming, Scripting & Programming – Applications (C++), Data Management & Advanced Data Management (SQL), Computer Architecture, Discrete Mathematics I, Calculus I, Linux Foundations, Version Control (Git).

A.A.S., Information Systems Technology — Community College of the Air Force

Awarded February 2017

Regionally accredited associate degree completed overseas, combining Air Force technical training, leadership education, and general-education coursework; applied the coursework directly to on-the-job training curricula across three overseas bases.

Professional Military Education

- Noncommissioned Officer Academy — JBSA, TX (2023) · Distinguished Graduate
- Airpower Leadership Academy — Kunsan AB, South Korea (2022) · Selected Above Peers
- Airman Leadership School — Yokota AB, Japan (2018) · Distinguished Graduate

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- CompTIA A+

- CompTIA Security+
- CISSP – Certified Information Systems Security Professional
- Linux Essentials (Linux Foundation)
- MIT Professional Education — Designing AI Products and Services
- U.S. Air Force — Project Management

PROFESSIONAL EXPERIENCE

Section Chief, Training & Evaluations — *Department Lead, Quality Assurance*

U.S. Air Force · 48th Intelligence Support Squadron, Beale AFB, CA **Oct 2025 – Present**

- Leads the squadron's training and evaluation flight, managing 62 squadron programs that directly support a \$905M intelligence weapon system and its 760 on-site analysts.
- Directs squadron training through a locally developed communications academy and squadron-wide master training plans.
- Serves as a planner, advisor, and inspector for group- and command-directed exercises.

Senior Project Manager, Deployed Communications

U.S. Air Force · Expeditionary Communications Squadron (Deployed), Undisclosed Location **Apr 2025 – Oct 2025**

- Directed the cyber planning, cybersecurity, data management, and logistics offices for a deployed air expeditionary wing supporting aircraft from five nations flying 24,000 annual sorties.
- Managed a \$10M communications and cybersecurity project portfolio across four installations, delivering three secure, hardened networks that improved resiliency across the theater.
- Revived the wing commander's top priority — a \$1.5M alternate command-and-control center dormant since 2019 — by identifying seven missing capabilities and briefing wing leadership through delivery.
- Named Senior NCO of the Month (deployed unit) and Senior NCO of the Quarter (home unit) in the same rating cycle.

Flight Chief, Plans & Programs — *Division Lead, IT Program Management & Cybersecurity*

U.S. Air Force · 48th Intelligence Support Squadron, Beale AFB, CA **Oct 2024 – Apr 2025**

- Selected to fill the Flight Chief role, leading 29 personnel across seven specialties; expedited a \$1.2M sensor relocation that saves \$40M annually and authored the first documented emergency power-shedding plan for a \$905M data center.
- Led the migration of 740 intelligence analysts to a modernized classified network — personally parsing 5,300 asset records and directing a 16-person team to migrate 439 devices, reaching 90% completion versus a 54% command-wide average.
- Directed IT lifecycle management, refreshing 25% of a \$4.2M inventory, reviving a \$2.1M network backbone that was 90% end-of-life, and executing 15 procurement packages in under a month.

NCOIC, Plans & Requirements — *Department Lead, Project Management*

U.S. Air Force · 48th Intelligence Support Squadron, Beale AFB, CA **Nov 2022 – Oct 2024**

- Led an office of six project managers supporting a \$905M intelligence weapon system serving 760 analysts and seven combatant commands — overhauling operations to manage 145 projects worth \$4.1M, eliminating a three-year backlog and cutting average completion time from 12 weeks to three.
- Directed a group-wide initiative to relocate eight squadrons and consolidate command-and-control, executing a \$2.5M infrastructure package, relocating four commands, and installing 118 systems — averting \$47.5M in new construction costs.
- Revamped a \$3.4M asset-management program covering 3,200 devices, benchmarking best practices for 16 accounts and directing the secure disposition of 4,200 end-of-life systems to save \$1.9M.
- Led the group's transition to the Air Force's Cyberspace Infrastructure Planning System (CIPS), directing five team leads to deliver a first-of-its-kind user portal, 11 procedures, and 17 training classes for 79 users.

NCOIC, IT Projects — *Manager, IT Projects*

U.S. Air Force · 8th Communications Squadron, Kunsan AB, South Korea **Mar 2022 – Nov 2022**

- Led wing-wide cyber projects advancing a \$35M network enclave and 7,200 systems for 3,100 joint users, including the wing's Windows 10 modernization — 872 systems configured and 25,400 vulnerabilities eliminated, the highest completion rate in Pacific Air Forces.

- Delivered a \$2M wireless command-and-control installation with a 63-person team, extending emergency alert coverage to 4,000 personnel — recognized as a best practice by the numbered air force commander.
- Established the Pacific Air Forces Inspector General operations center for 70 evaluators, leading 15 personnel and deploying 85 devices to support 130 inspections across 13 squadrons — keying the wing's "Effective" inspection rating.

Section Chief, Cyber Operations — *Department Lead, Cyber Operations*

U.S. Air Force · 8th Communications Squadron, Kunsan AB, South Korea **Dec 2021 – Mar 2022**

- Selected one rank above grade to fill the section chief role, overseeing the Client Systems, Server Operations, Vulnerability Management, and Help Desk teams — more than 50 technicians led through Tier 2 managers.
- Cleared 2,000 trouble tickets and 207 cyber compliance orders at the #1 completion rate in Pacific Air Forces — earning the section the 2021 Team of the Year award.
- Led a nine-person team standing up the wing's first combat-ready joint command-post network, solidifying wing command-and-control operations.

NCOIC, Client Systems Operations — *Manager, Client Systems*

U.S. Air Force · 8th Communications Squadron, Kunsan AB, South Korea **Sep 2021 – Dec 2021**

- Directed five Tier 1 supervisors steering a 26-member office that resolved more than 2,000 IT tickets annually.
- Maintained and repaired voice, data, video, and cryptographic end-user equipment across the installation.
- Enabled the use of \$2.4B in infrastructure while supporting 126 senior leaders across the wing.

Unit Deployment Manager — *Manager, Deployments*

U.S. Air Force · 374th Communications Squadron, Yokota AB, Japan **Feb 2020 – Sep 2021**

- Managed deployment records, training, and availability for 250 personnel supporting worldwide contingency plans, raising the squadron's defense-readiness qualification rate from 49% to 91%.
- Created the office's first continuity program — a deployment tracker and 28 standard procedures covering 46 pre-deployment requirements — cutting new-manager onboarding from three months to two weeks.
- Readied key personnel and \$267K in equipment in under 72 hours to avert a U.S. Strategic Command mission stop, enabling the first overseas mobile air operations center.

NCOIC, Asset Management — *Manager, IT Acquisitions & Lifecycle Management*

U.S. Air Force · 374th Communications Squadron, Yokota AB, Japan **Jan 2019 – Feb 2020**

- Supervised the team managing 20,000 IT assets worth \$20.6M for 30 Department of Defense agencies.
- Overhauled radio lifecycle planning by identifying 306 assets for redistribution or disposal, eliminating a three-year backlog and recouping \$815K.
- Led year-end IT purchasing — vetting 158 quotes and approving \$3M in upgrades in under a month — and migrated 50,000 devices across 154 accounts to the DoD asset-tracking system ahead of schedule.

Asset Management Supervisor — *Supervisor, IT Acquisitions & Lifecycle Management*

U.S. Air Force · 374th Communications Squadron, Yokota AB, Japan **Jul 2018 – Jan 2019**

- Directed asset accountability for the base-wide Windows 10 upgrade — 9,900 systems across 39 squadrons worth \$21.9M — beating the Department of Defense deadline by a month.
- Purged 283,000 files totaling 332 GB from shared drives, cutting information search time from 15 minutes to 30 seconds.
- Authored six procedure guides for 331 equipment custodians across 48 locations, eliminating 210 hours of redundant training annually.

Client Systems Supervisor — *Senior IT Technician*

U.S. Air Force · 374th Communications Squadron, Yokota AB, Japan **Sep 2017 – Jul 2018**

- Provided network and desktop support for 6,000 users and 20,000 client systems worth \$20.6M across 39 units.
- Led a four-technician technology refresh of the base professional development center, replacing 29 legacy systems used by 425 students annually.
- Built offline "deployer kits" providing mobile office capability for contingency operations and resolved an air-traffic-control outage protecting coverage for 3,300 sorties.

Supervisor, Communications Focal Point — *Help Desk Technician / Team Lead*

U.S. Air Force · 35th Communications Squadron, Misawa AB, Japan **Sep 2016 – Sep 2017**

- Ran the base IT help-desk queue, processing 1,940 tickets with the squadron's best open-to-close ratio while training 16 technicians and authoring 13 standard procedures.
- Restored classified network service for 1,000 users and repaired base-wide web services for 6,500 users.
- Deployed as communications support for exercise Red Flag–Alaska, enabling command-and-control for 80 U.S. and Canadian aircraft across 232 sorties.

Supervisor, Client Systems Team — *IT Technician / Team Lead*

U.S. Air Force · 35th Communications Squadron, Misawa AB, Japan **Sep 2015 – Sep 2016**

- Resolved 221 trouble tickets and 29 work orders supporting 6,000 customers with 99% system availability.
- Led a three-member cabling team through a facility renovation — 14 phone lines and 11 workstations — restoring pay services for 6,500 personnel.
- Prepared the wing for the Windows 10 transition by completing 61 data backups and imaging 72 computers.

Client Systems Technician — *IT Technician*

U.S. Air Force · 51st Communications Squadron, Osan AB, South Korea **Sep 2014 – Sep 2015**

- Postured the base for a \$1.24M technology refresh, establishing data-transfer procedures and fielding 1,200 assets to strengthen a \$24M network.
- Configured and installed 16 unclassified and classified systems in under 72 hours for an operations squadron upgrade, and established a secure communications link to the Secretary of the Air Force's aircraft within three hours.
- Audited 579 print sites and eliminated 12,000 security discrepancies, a key contribution to the base's "Excellent" cyber-inspection rating.
- Graduated Air Force IT technical training as the AETC Top Graduate (Commander's Award), Keesler AFB, MS.

TECHNICAL PROJECTS

Cisco 9300 Configuration Generator — *Network automation tool (Excel/VBA)*

Reverse-engineered switch configuration files and independently built an Excel/VBA generator with GUI-driven inputs for port counts and VLAN assignments, producing ready-to-deploy configuration files that standardized builds and eliminated manual provisioning errors.

Computer Science Club & Capture-the-Flag Environment — *Founder & facilitator*

Founded and led a Computer Science Club while forward-deployed (2025), authoring a hands-on curriculum spanning Linux administration, bash scripting, Python, penetration-testing fundamentals, packet analysis, assembly for reverse engineering, and embedded C. Co-designed an internal CTF environment with a red-team-experienced cybersecurity officer.

Full-Stack Application Development — *Java / Spring coursework project*

Designed and built a full-stack application in Java and the Spring Framework, applying data structures, relational data management (SQL), and version control (Git) as part of an accelerated computer science curriculum.

SIPRNet Modernization — *Classified-network migration lead*

Led one group's share of a \$162M classified-network modernization. Parsed 5,300 records across three datasets, coordinated contractors and remote technicians, and migrated 439 devices for 740 analysts — reaching 90% completion versus the 54% command average.

Squadron Relocation & C2 Consolidation — *\$2.5M infrastructure program*

Drove a wing initiative relocating eight squadrons and integrating three partner wings. Delivered the infrastructure package, moved four command elements, installed 118 systems, and averted \$47.5M in military construction.

Alternate Wing Operations Center — *Command-and-control revival*

Resurrected a \$1.5M backup command-and-control facility dormant since 2019 — the deployed wing commander's top priority — by defining seven missing capabilities and delivering the project during a six-month deployment.

Enterprise Requirements Platform Transition — *CIPS implementation*

Led a group's transition to the Air Force's Cyberspace Infrastructure Planning System, directing five team leads to deliver a first-of-its-kind user portal, 11 procedures, and 17 training classes for 79 users.

LEADERSHIP, VOLUNTEER & COMMUNITY SERVICE

- **Air Force Sergeants Association, Chapter 1372** — Trustee & Volunteer Activity Lead (2023), Vice President (2024), Senior Advisor (2025). Organized 465 volunteers across 28 events, co-chaired Beale's POW/MIA Recognition Day, led an 80-

volunteer Yuba-Sutter Veterans Stand Down that raised \$45K for more than 675 local veterans, and directed food-bank and Habitat for Humanity efforts distributing more than 568,000 lbs of goods.

- **U.S. Air Force Ceremonial Honor Guard** — Lead Trainer, Osan (2014–2015); Assistant Manager & Manager, Yokota (2018–2021). Trained more than 171 ceremonial guardsmen, led 141 events in a single year, earned Honor Guard Member of the Year (2019), and completed 120 hours of protocol and military funeral honors training.
- **Computer Science Club — Deployed** — Founder & Facilitator (Apr–Oct 2025). Stood up and led weekly peer instruction in Linux, scripting, Python, and security fundamentals while forward-deployed, for members ranging from sysadmins to game developers.
- **Mentorship & Charity** — Led 20+ professional-development and enhancement seminars across his career, training 170+ airmen in career and leadership skills — including as lead mentor for the installation's 5-day Airman Professional Enhancement Seminar (15 students, 19 topics). Also unit representative for the Combined Federal Campaign and Air Force Assistance Fund and a certified base first-aid/CPR instructor.

HONORS, AWARDS & DECORATIONS

Military Decorations: Air and Space Commendation Medal with three oak leaf clusters · Air and Space Achievement Medal with two oak leaf clusters · Army Achievement Medal

Distinguished Graduate & Top Graduate Honors

- 2023 — Noncommissioned Officer Academy Distinguished Graduate, JBSA-Lackland, TX
- 2018 — Airman Leadership School Distinguished Graduate, Yokota AB, Japan
- 2014 — AETC “Top Graduate” Commander's Award, Keesler AFB, MS

Individual Performance & Volunteer Awards

- 2025 — Senior NCO of the Month, Expeditionary Communications Squadron (Deployed)
- 2025 — 48 ISS Senior NCO of the Quarter (I), Beale AFB, CA
- 2023 — AFSA Ch. 1372 NCO of the Quarter (IV) & NCO of the Year, Beale AFB, CA
- 2023 — AFSA Ch. 1372 Volunteer of the Year, Beale AFB, CA
- 2023 — 548 ISRG Volunteer of the Quarter (III) & Volunteer of the Year, Beale AFB, CA
- 2019 — 374 AW Honor Guard Member of the Quarter (II) & Member of the Year, Yokota AB, Japan
- 2019 — 374 CS NCO Technician of the Quarter (I), Yokota AB, Japan
- 2016 — 35 CS Cyber Systems Airman of the Year / Information Dominance Award, Misawa AB, Japan
- 2016 — 35 CS Airman of the Quarter (II), Misawa AB, Japan
- 2015 — Team Osan Honor Guard Member of the Quarter (I), Osan AB, South Korea
- 2015 — 51 CS Airman of the Quarter (I), Osan AB, South Korea

Team Awards

- 2023 — Team of the Quarter (II), 548 ISRG, Beale AFB, CA
- 2022 — Team of the Year, 8 CS, Kunsan AB, South Korea
- 2022 — Team of the Quarter (I, II & III), 8 CS, Kunsan AB, South Korea
- 2021 — Team of the Year, 8 CS, Kunsan AB, South Korea
- 2017 — Team of the Year, 35 CS, Misawa AB, Japan
- 2017 — Team of the Quarter (I & II), 35 CS, Misawa AB, Japan

CORE ATTRIBUTES

Self-directed learner · Analytical problem solving · Reverse-engineering mindset · Detail-oriented execution · Cross-cultural & multinational leadership · Technical communication & peer instruction
